

Dillon Consulting Limited is a well-established, employee-owned professional consulting firm operating across Canada and internationally. We provide a wide range of consulting and design services related to the infrastructure, real estate, resource, industrial and government sectors in Canada and abroad. We are currently seeking candidates from the **Thunder Bay to Wawa** area for a 5 month (20 week) **Aboriginal Environmental Monitor** contract position from June 1st until September 30th 2014. Multiple positions will be needed along the length of a 400km transmission line from Thunder Bay to Wawa.

- Salary: \$20/hour
- Health and safety training provided
- Personal protective and communications equipment provided
- Living allowance (based on receipts)
- Mileage allowance or rental

Responsibilities

- Observe geotechnical drilling
- Collaborate with environmental field data collection
- Work as an assistant to the Environmental Project Lead in the field
- Identify potential and known traditional lands, cultural heritage and natural environment
- Assist in collection and documentation of features of the cultural and natural environments
- Monitor compliance to environmental best management practices, permits and approvals
- Completion of daily logs and weekly monitoring reports
- Recommended potential mitigative measures to decrease potential impacts to cultural and natural environments

Qualifications

- Knowledge of traditional land use and cultural heritage
- Completion or in pursuit of a degree in biology, ecology, environmental science or a related discipline, and/or certification as an environmental technician or technologist
- Good written and verbal communication skills
- Proficient in location of traditional lands, culturally sensitive areas, environmental features, etc.
- Skills in auditory and visual wildlife (e.g., bird) identification would be an asset
- Physically able to walk through difficult terrain for extended periods of time

Experience

- Practical experience with cultural heritage and traditional land uses as it pertains to field data collection and observation
- Work experience in the field of environmental monitoring at construction sites an asset
- Terrestrial natural heritage field assessment experience would be an asset
- Demonstrated involvement with naturalist clubs or environmental stewardship groups would be an asset
