Subject: Aggregate Licence Application – Patent Land - MacGregor Township

Dear Troy Delaronde,

The Ministry of Natural Resources and Forestry has received an application for an Aggregate Licence on a private land lot within MacGregor Township (map enclosed).

The application is for a Class A Category 3 & 4 (pit and quarry 1.5m above groundwater table) aggregate operation, on a 60 ha lot of patent land with the extraction area totaling 53 ha, and issued under the Aggregate Resources Act. The applicant is currently operating a Class B licence on this site (20,000 tonnes extraction limit) and are applying to upgrade the licence to a Class A (unlimited tonnage). The full application package is available for your review upon request.

Our preliminary review indicates that there are no known land claims, or Aboriginal title claims and no significant environmental impacts were identified through the assessment process. This proposal will not impact any known Cultural Heritage sites or values of which the MNRF is aware. The boundaries of this aggregate extraction area are within private land, with the majority of impacts confined to the private land parcel or to neighbouring patent land (i.e. noise, traffic).

However, we would appreciate hearing comments and concerns that you may have including how this proposed work may impact your Aboriginal Rights and/or Aboriginal values specific to your community through this consultation process.

Please provide your comments regarding this application to us in writing by September 9, 2019. If you would like to discuss this application or the aggregate licence application process further please contact myself at [REDACTED]

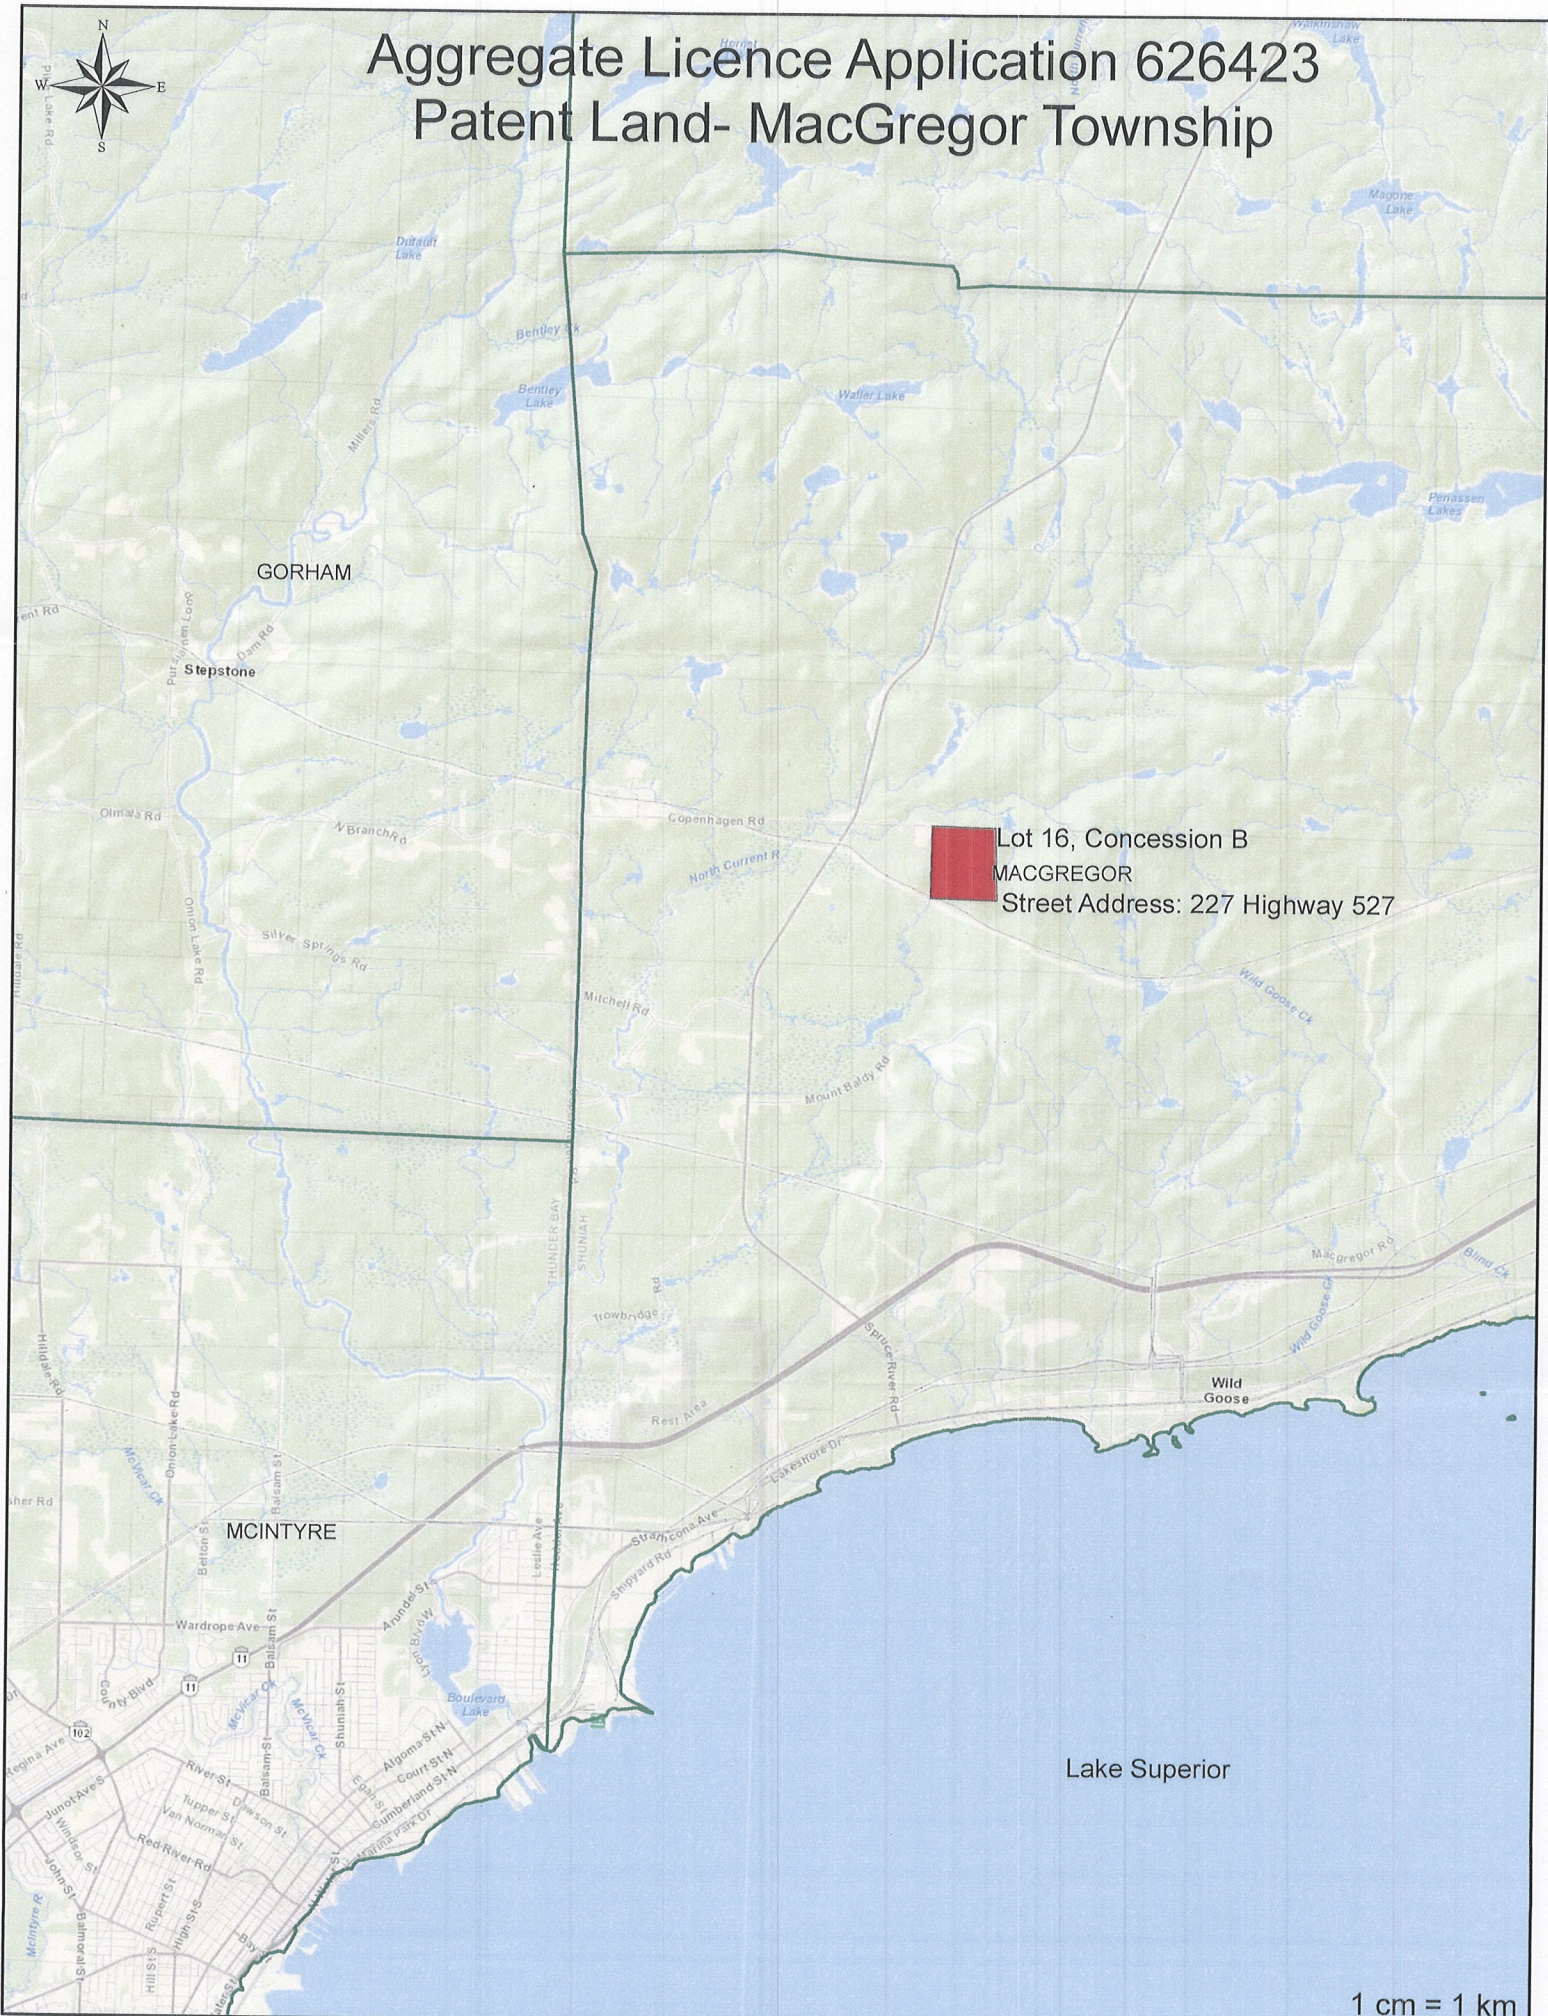

Thank you,

[REDACTED]
