

MINE ENGINEER

Date Posted: 12/17/2020

Location: Dubreuilville, Ontario, Canada

Reference No.: 2020-1605

Position Type: Full Time

Schedule: 4 days on, 3 days off (10 hours)

POSITION OVERVIEW:

Reporting to the Chief Mine Engineer, the Mining Engineer will be focused on providing mining short range plans, productivity analysis, drill and blast design, efficiency studies through start up, commissioning and operation at the Magino mine.

You will primarily be responsible for providing technical assistance to mine operations team; maintain daily, weekly and monthly reporting whilst identifying areas of concerns. Provide technical assistance to the drill & blast team. Maintain blast patterns and ensure reports are kept up to date ensuring compliance of all regulations is met. Monitor scheduling and progress of day to day operations to ensure short and long term plans are consistently met. Build positive working relationships with both technical services and mining operations departments.

As this is a start-up position, the successful candidate may also be required to contribute to the design and development of processes, practices, and methodologies in mine design and mine planning.

MAGINO MINE:

The Magino Project is a brown-fields site located in northern Ontario, Canada that contains an historical underground gold mine, landfill and tailings management facility ("TMF"). The Corporation has conducted a Feasibility Study during 2017 that examined mining the deposit using conventional open pit mining methods and extraction of gold from the ore using a 10,000 tonnes per day carbon-in-pulp ("CIP") mineral processing facility. When developed, Magino will produce around 150,000 ounces of gold during the first five years of production. The project has over a 15-year mine production life (including one year of pre-production).

RESPONSIBILITIES:

- Diploma in related
- Post-secondary education in Office Administration
- 5 years of relevant Administrative experience preferably in a mining environment.
- Proficient with Microsoft Office.
- Exceptional organizational and multitasking skills.

- Strong interpersonal skills and the ability to deal effectively independently or in a team environment.
- Excellent written and verbal communication skills.
- Ability to support and promote Health & Safety practices.
