

Greenstone Gold Mines L.P. is a 60/40 joint venture partnership between Equinox Gold and Orion Mine Finance Group formed for the purpose of the joint ownership and development of the Greenstone Gold Property including the Greenstone Mine located on a historical mine site in the Geraldton-Beardmore Greenstone belt in Ontario. The Greenstone Mine is managed directly by a dynamic and experienced Owner's team, with an estimated \$1.5 Billion investment over the three-year construction and commissioning phase, and a 14-year operating life of mine.

Mill Operator - Level 7

Greenstone Mine is seeking a Mill Operator - Level 7 to join our team. Reporting to the Mill Operations Shift Supervisor, Mill Operator is responsible for the mill's day-to-day activities safely while ensuring production and quality requirements are within guidelines. The Mill Operator will be collaborating with all other departments as a team, to achieve set out budgeted targets.

PRIMARY RESPONSIBILITIES MAY INCLUDE:

- Ensure adherence to all pre-operational checks and procedural requirements to safely start-up, efficiently operate, and safely shutdown all process equipment.
- Have a strong commitment to Safety First
- Ensure all aspects of operation, environmental policies and practices are followed, keeping the preservation of the natural environment a priority.
- Monitor/Operate powerhouse, process, and fire water systems, and immediately report any malfunctions that may affect production targets or personnel safety.
- Monitor and control the Mill Grinding circuit to achieve maximum throughput and target grinds for Leach feed.
- Monitor/Operate Gyratory Crusher, HPGR, Grinding, Leach/CIP, Elution, Cyanide Detoxification, Tailings, Reagent Mixing and Water Treatment and Water Management
- Monitor reagent delivery and addition systems.
- Operate and monitor the computer-based control system within its parameters.
- Coordinate and communicate operations in a timely and effective manner with other departments (i.e., Maintenance, Mining etc.).
- Inspect circuits regularly to detect any areas of concern and arrange maintenance as required.
- Perform Lock Out and Tag Out procedures on processing equipment as required.
- Operate all equipment in accordance with Company policies and Standard Operating Procedures.
- Troubleshoot, correct, and report circuit upsets and equipment malfunctions when required.
- Complete and maintain shift logs and reports to the level of detail required, ensuring accuracy in the reporting of data.
- Operate various pieces of auxiliary and mobile equipment when required.
- Share best practices and experiences with other operators to promote a strong and successful teamwork environment.
- Fill in as a relief supervisor when required.
- Other related duties may be assigned as part of the progression plan.

SKILLS AND COMPETENCIES

- Self-motivated and safety conscious
- Ability to prioritize multiple tasks.
- Ability to work independently and as part of a team in a fast-paced environment.
- Strong verbal and written communications skills.

- Proficiency in language of operation
- Demonstrates as strong attention to detail.
- Ability to maintain a high degree of confidentiality.
- Strong analytical skills
- Willing to adapt and work in an inclusive work environment.
- Willing to perform repetitive tasks.
- Comfortable working at heights
- Able to work night shift, weekend and/or follow set out rotational schedule.

EXPERIENCE, QUALIFICATIONS AND EDUCATION

- Ontario Common Core (Processing Mill Operations) is considered an asset.
- Equivalent industrial experience is considered an asset.

LOCATION

- This position will be based in Geraldton, Ontario.
